Who We Are . . .

The Association of Career Employees (ACE) has been a voice for Wisconsin's civil service employees for more than 40 years.

Our purpose is to identify common concerns of state civil service employees, represent state employee and retiree interests, and protect what has been, and can again be, a nationally respected civil service system.

We believe that a strong civil service with a qualified, fairly treated and adequately compensated workforce is necessary for good government.

ACE is a professional membership organization, not a union. We are unique in that we represent employees in executive, confidential, and supervisory classifications as well as employees who are not managers or supervisors. Membership is open to any current or former state employee who shares our goals and vision.

Our membership list is confidential.

Join ACE to have your voice heard in Wisconsin State Government.
